

Find the 5,000

Over 40 years old?

Not had a blood pressure
check in the last five years?

If so, you might be one of the 5,000 people across North Yorkshire and York who could be at risk from hypertension or high blood pressure.

NHS North Yorkshire and York's Find the 5,000 campaign is asking you to arrange a blood pressure check at your GP practice if your answer is yes to the two questions above.
